

TRADITIONAL LIQUID

EXCEED® TRADITIONAL LIQUID FOR SOYBEAN

This liquid inoculant is intended to be applied on-seed. It is a culture of highly effective strain of rhizobia (nitrogen-fixing bacteria) that will colonize the plant roots to gather and fix the “free” nitrogen of the air, making it available to the plants.

Product 1003

Treats: 10,000# (4,536 kg) of seed or 200 units
Contents: One 10 liter (338.14 fl oz) Bladder bag of inoculant
Package Configuration: 1 package per case, 45 cases per pallet
Net Weight: 22.1 lb (10.02 kg)

Product 1004

Treats: 2,500# (1,134 kg) of seed or 50 units
Contents: One 2.5 liter (84.54 fl oz) Bladder bag of inoculant
Package Configuration: 4 packages per case 54 cases per pallet
Net Weight: 22.1 lb (10.02 kg)

CONTAINS NONPLANT FOOD INGREDIENTS

Minimum Guaranteed Analysis

Inoculant:
Active Ingredient: <1% by Weight
Bradyrhizobium japonicum: 5×10^9 CFU/mL
Inactive Ingredients: >99% by Weight

KEEP OUT OF REACH OF CHILDREN

This product does not meet the regulatory definition of a hazardous chemical under 29 CFR 1910.1200. However, good industrial hygiene practices should be used in the manufacture and handling of the product.

Precautionary Information:

While Exceed® Traditional Liquid for Soybean is non-toxic it is recommended that the applicator avoid inhalation. Visjon Biologics recommends the use of gloves and eye protection while using Exceed® Traditional Liquid for Soybean.

Directions for Use:

On-Seed Application

- Shake container to achieve well mixed product.
- Apply Exceed® Traditional Liquid for Soybean at 3.4 oz per 100 pounds (100 mL per 45 kg) of seed. Make sure soybean seeds and inoculant are well mixed to cover all seeds with liquid.
- Over application can cause sticky seeds and clumping of seeds. Allow seeds to dry and stir to break up clumps.
- Contact Visjon Biologics Representatives for recommendations on use in combination with fungicides and insecticides.

In-Furrow Application

- Shake container to achieve well mixed product and empty into clean delivery tank. Add clean non-chlorinated water to achieve convenient delivery rate, typically 5 to 15 gallons/acre (9 to 28 L/ha) Applicator should be calibrated to achieve recommended rate.
- Apply Exceed® Traditional Liquid for Soybean in-furrow at a rate of 0.5 to 1 oz per 1000 ft (15 to 30 mL per 300 m) of row. One 84.54 oz (2.5 L) bladder at the 1 oz (30 mL) rate will treat 12.5 ac in 30 in (5 ha in 75 cm) rows.
- In-furrow application should be directly on the seed or in the seed furrow, not to the side, above or below the seed. Product should be used within 24 hours of mixing in water.

Storage of Exceed® Traditional Liquid for Soybean:

- Always read and follow instructions.
- Store in a cool, dry place out of direct sunlight.
- Store product between 40° and 77° F (4° and 25° C.)
- Open package only when ready to use.
- Use before expiration date.
- Do not store in an area which is to be fumigated.
- Small amounts of product which cannot be used according to instructions may be disposed of in a landfill.

Expiration Date:

Exceed® Traditional Liquid for Soybean carries a two-season shelf life and expires the date stamped on the case.
