

ATTENTION:

- This seed has been inoculated with nitrogen-fixing Rhizobium bacteria. Rhizobium are live organisms. Handle with care.
- Avoid storage in direct sunlight and store product at a temperature between 40-77° F.
- Plant seed prior to expiration date. Re-inoculate seed if inoculant has expired.
- Ensure planter is clean and drill tubes are properly adjusted for optimum seed placement. Ensure planter is calibrated for proper seeding rate prior to planting.
- Empty seed boxes at the conclusion of planting each day.

EXPIRATION:

Apply product to seed before the expiration date marked on this case.

After application to seed refer to appropriate product label to determine on-seed rhizobium survivability.
